

FACILITATING YOUR ACCESS TO THE LAW

THE COSTA E BUCCI'S WAY

CONCEPT

We assist our Clients by solving problems and facilitating secure business. Our practice combines legal knowledge and superior Client's service.

We provide high-end and personalized services at reasonable prices. We are fully prepared to provide services to our foreign Clients.

We surpass the obvious. We believe in conciliation and negotiation amongst the parties. Judicial claims are not – and should not be – the only solution for all cases.

BRAZILIAN LAW

Unlike the United States of America and the United Kingdom, Brazil adopts a civil law system, based on the Roman-Germanic tradition. Although custom and case law are part of the legal framework, written law prevails over them from an interpretative point of view. Judges can only resort to analogy, custom and general principles of law if the law is silent on a matter.

The Federal Constitution is the highest law and no other legal provision can contradict it. Each state has its own constitution, and state and municipal laws cannot contradict their respective state constitutions.

Our legal system is intricate and profound knowledge of it is indispensable to succeed in any claim, procedure or negotiation.
